Summary

I am currently an undergraduate. I am a self-motivated and dedicated person passionate to achieve perfection. I am a quick learner and a hardworking person and constantly committed to improving my skills and abilities as well as I like to explore and experience new challenges. My goal is to become a professionally qualified Software Engineer.

Skills

Html	CSS	Tailwind CSS	JavaScript	ReactJS
PHP	Node.js	Express	Java	C#
Python	SQL	MongoDB	Git, GitHub	Arduino
Photoshop	Canva	Figma		

Education

Undergraduate - BSc (Hons) Software Engineering Cardiff Metropolitan University affiliated with ICBT	2022 - Present (2nd Year)
Advanced Diploma in Advertising & Multimedia National Institute of Business Management (NIBM - Sri Lanka)	2022 - 2023
Diploma in IT ESOFT Metro Campus	2018 - 2019
Student – Kalutara Vidyalaya GCE - Advanced Level Math's Stream	2012 - 2020

Projects

- **Personal Portfolio Website ([Portfolio link](#))**
Created a modern personal portfolio website to highlight skills, experience, and projects. Designed an intuitive user interface for easy navigation and accessibility.
Tech Stack - Html, CSS, JavaScript, GitHub, Figma
- **Food Delivery Website ([GitHub Repository](#))**
Designed and developed a comprehensive food ordering website featuring a user-friendly frontend, a powerful admin panel, and a robust backend server. Implemented user authentication for secure account creation and login, a shopping cart for seamless food item selection, and integrated the Stripe payment gateway for online transactions. Enabled real-time order status updates to enhance user experience.
Tech Stack - React JS, MongoDB, Express, Node.js, Stripe

- **Food Delivery App([GitHub Repository](#))**

Designed and developed a fully functional food delivery app with a dedicated admin panel using Flutter. Implemented a seamless user authentication system, an intuitive shopping cart feature, and integrated the Stripe payment gateway for secure online transactions. Enabled real-time order status updates to ensure a smooth and efficient user experience.

Tech Stack - Flutter, Dart, Firebase, Stripe

- **Movie Booking Website([GitHub Repository](#))**

Movie Booking Web is a user-friendly web application designed for seamless movie ticket reservations. Built using HTML, CSS, JavaScript, MySQL, and PHP, this platform aims to provide a visually appealing and efficient booking experience for users looking to purchase movie tickets online. It also features a comprehensive admin panel, enabling administrators to manage movies, schedules, and reservations with ease.

Tech Stack - HTML, CSS, JavaScript, MySQL, PHP

Personal Skills

Knowledgeable in Object-Oriented Programming (OOP) & Agile Methodologies. Experience with frontend and backend development, mobile apps, Java, Flutter, and development tools such as VS Code. Experience with Arduino and robotics. Effective communication and teamwork skills.
